Borrower's Objectives

- 1) We wish to obtain the maximum pre-approved mortgage funding for the purchase of an additional revenue property, or properties.
- 2) We would like to lock in the mortgage interest rate for as long as possible - preferably 90 days or longer.
- 3) We wish to deal with a mortgage lender who is ready and willing to finance revenue property in the smaller towns and communities of Alberta.
- 4) We prefer to align ourselves with a lender who is prepared to include our rental income in calculating our TDS and GDS ratios.

Borrower's Objectives

- 1) We wish to establish a line of credit, (or an equity take-out), on one of our properties to enable us to:
 - ◇ invest in additional property.
 - ◇ invest in first, (or second), mortgages with low loan to value ratios.
 - ◇ invest in a variety of eligible investments through our self-directed RRSP's.
- 2) We anticipate that the collateral for this line of credit will be secured by the lender increasing our first mortgage amount or by registering a second mortgage against one or more of our currently held properties.
- 3) We desire a line of credit which increase the total indebtedness on the property to a maximum of (XXX)%. We are also seeking an interest rate no higher than prime plus 0.50%.
- 4) Our preference is for a revolving line of credit requiring us to make interest-only payments on a monthly basis and with no minimum repayment of principal.
